S.S.S. PURELY VEGETABLE.

By far the greater number of patients, however, seeking relief for so-called "Weakness" is furnished by healthy and robust men. On examination we find a prostate which has been diseased for years, contracted or early disintegration. These patients have no weakness at all. Prostateitis, which has been diagnosed as a symptom, or disordered function of the chronically inflamed prostate gland. We find by curing this inflammation, that full vigor at once returns. It should be understood that tonic electricity, etc., might cure a real weakness, but would do no good in reducing the size of the tender, swollen and inflamed prostate. This we accomplish by local treatment, thus avoiding drugs. Men who have unsuccessfully treated for a weakness should follow the S.S.S. CONSUMPTION FREE. We are perfectly willing to wait for our fee until our patients are cured to stay cured.
